JUMBO PICTURE CARDS—5½" x 8". On heavy coated stock. Available in the following:

Allegro	Rocket Snap	La Paloma	Toreador	Mercury
Caprice	Ballerina	Maestro	Lavender Lace	Neptune
Nocturne	Blue Lace	Maytime	Aztec	Paleface
Presto	Blue Magic	Prima Donna	Cherokee	Polaris
Lytic	Calypso	Improved	Comanche	Satellite
Rhapsody	Crusader	Sabre Dance	Comet	Sugar Plum
Glorious Mix	Fire Dance	Tango	Linda	Venus

PRICE OF THE ABOVE VARIETIES.....\$6.25 per 100

MINIMUM ORDER 50 CARDS

PLASTIC PLANT TAGS—These illustrated tags are made of a durable white vinyl plastic that is durable and weather proof. Each tag in addition to the picture gives a brief description of the growing habit of the plant. **WE CAN SUPPLY THESE IN THE FOLLOWING VARIETIES:**

Petunia—All Double Mixed.	Delphinium—Pacific Giants Mixed.
Petunia—Ballerina (Salmon Pink).	Lobelia—Crystal Palace (Blue).
Petunia—Blue Lace (Orchid Blue).	Marigold—African Giant Mixed.
Petunia—Blue Lustre (Deep Blue).	Marigold—Crackerjack Mixed.
Petunia—Blue Magic (Deep Violet).	Marigold—Dwarf Orange.
*Petunia—Calypso (Red and White).	Marigold—Dwarf Spry (Yellow, Maroon Edge).
*Petunia—Cherry Tart (White and Cherry Red).	Marigold—Dwarf Bright Yellow.
Petunia—Comanche (Flame Red).	Marigold—Dwarf Lemon Yellow.
*Petunia—Coral Satin (Coral Pink).	*Marigold—Petite Mixed.
Petunia—Crusader (Rose and White).	*Marigold—Spun Gold (Golden Yellow).
Petunia—Dwarf Giants of California Mixed.	Marigold—Tall African Lemon.
Petunia—Fire Dance (Red).	Marigold—Tall African Orange.
Petunia—La Paloma (White).	Pansy—Arcadia Mixed.
Petunia—Maytime (Salmon Pink).	Pansy—Jumbo Mixed.
*Petunia—Neptune (Light Violet Blue).	Pansy—Roggli Mixed.
Petunia—Paleface (White).	Pansy—Swiss Giants Mixed.
Petunia—Satellite (White on Pink).	Phlox—Dwarf Mixed.
Petunia—Pink Satin (Pink).	*Phlox—Globe Mixed.
Petunia—Prima Donna (Rose Pink).	Phlox—Twinkles Mixed.
Petunia—Red Satin (Bright Red).	Poppy—Iceland Mixed.
Petunia—Single Mixed (Carnival).	Portulaca—Double Mixed.
Petunia—Single Mixed (Nana Compacta).	Primula—Malacoides Mixed.
*Petunia—Sugar Plum (Orchid on Pink).	Salvia—Dwarf (Red).
Petunia—Tango (Red).	Salvia—Tall (Red).
*Petunia—Venus (Rose Pink).	Snapdragon—Rocket Mixed.
Petunia—White Magic (White).	Snapdragon—Tetra Mixed.
Ageratum—(Blue).	Stock—Giant Imperial Mixed.
Alyssum—Carpet of Snow (White).	Stock—Hi-Double Mixed.
Alyssum—Royal Carpet (Violet).	*Sweet William—Mixed.
Aster—American Beauty Mixed.	Verbena—Mixed.
Aster—Crego W. R. Mixed.	Viola—(Blue).
Aster—Giants of California Mixed.	Viola—(Yellow).
Calendula—Mixed.	Zinnia—California Giants Mixed.
Calendula—(Orange).	Zinnia—Dahlia Flowered Mixed.
Calendula—(Yellow).	Zinnia—Giant Hybrid Mixed.
Carnation—Mixed.	Zinnia—Pompon Double Mixed.
Cineraria—Mixed.	Zinnia—Tom Thumb Mixed.
Dahlia—Unwin's Dwarf Mixed.

Southern growers can revise these schedules as follows:

For Mid-Winter flowering (December thru March) use varieties suggested for flowering in the North from (mid-February thru April 1) and (mid-October to December 1st).

For flowering late spring through early fall (April thru mid-October) use varieties suggested for flowering in the North (mid-May to September 1st).

SNAP DRAGON—Greenhouse Strains

YODER HYBRID IMPROVED SELECTIONS

ARIZONA

Summer flowering lavender hybrid. Color resembles the spring variety Lavender Lady. Vigor is high. Spikes are long and gracefully tapered.

COLORADO

Large flowered yellow hybrid. For **late Spring and Fall**. Very uniform and vigorous. Color of Broker's Tip.

DELAWARE

Ivory white hybrid. Retains and improves for **spring and fall flowering** the valuable traits of Citation. Floret is large, stems heavy with very long spikes.

FLORIDA

Vigorous light pink **summer hybrid**. Displays superb color retention under high temperature and is highly shatterproof. Spikes are long with compact florets.

INDIANA

Light rose pink **late winter and spring hybrid**. Equally valuable for early fall. Large floret. Spikes are long and tapered.

KANSAS

Brilliant golden bronze hybrid for **late Spring and Fall**. A vigorous variety with strong stem and long spikes.

KENTUCKY

Glorious apple blossom pink. **Late spring and fall hybrid**. A vigorous, clean stemmed hybrid with a minimum of shatter.

MAINE

Rich purple hybrid. For **winter and early spring**. The florets are very large and beautifully spaced on strong spikes.

NEVADA

Intense yellow hybrid. Develops a huge floret on vigorous long spikes. Valuable in **May-June and October-November** crops.

NEW YORK

Smooth light pink. For **winter and early spring**. Displays tremendous vigor and earliness. Spike is large and compact. Very clear pink with minimum of yellow in lower lip. Highly shatterproof.

OHIO

Pure paper white hybrid for **winter and early spring crops**. Florets are compactly spaced and shatterproof.

TENNESSEE

A real deep red hybrid. Best suited to **fall periods**. Quite shatterproof with good floret spacing on long uniform spikes.

VERMONT

Primrose yellow hybrid for **winter and early spring**. Spikes are long and graceful with abundant tip-bud. Stems are hard, clean and uniform.

VIRGINIA

A vigorous paper white hybrid. For **late spring and fall**. Long spikes, hard, clean stem with good large florets that are shatterproof.

WISCONSIN

Intense, dark pink **winter and early spring hybrid**. Spikes are long and tapering. Stems are medium and hard.

Price of the Above Per Pkt. \$3.50

THE ABOVE ALSO AVAILABLE IN ½ TR. PKTS. at \$2.00 each.

ANTIRRHINUM (Snapdragon)

GREENHOUSE STRAINS

SNAPDRAGON CULTURE

SOIL PREPARATION—A loose, porous soil containing about one-fourth peat moss by volume has been satisfactory in many ranges. Add four or five pounds of superphosphate per 100 square feet of bench area before planting. Thoroughly steam sterilize at least once a year, preferably after cutting off the summer flowering crop. Make sure the soil is uniformly moist and that a temperature of 180 deg. F. is maintained for at least one-half hour. Over-steaming will not harm the soil.

SEED GERMINATION—Snapdragon seeds should germinate in about seven days from the time they are sown. Maintain a constant temperature of 65 to 70 deg. F. and keep the medium uniformly moist especially the top one-half in the flat.

Use neutral peat which has been shredded and screened, or any other loose, porous mixture for your propagating medium. For surest results, the mixture should be steam sterilized in the flats before sowing the seeds. When the seeds have germinated, give them increasingly more sun and ventilation.

DIRECT BENCHING—Consistently good results have been obtained by direct benching from seedling flats. You can do this safely about three weeks from the sowing date. Direct benching saves time and labor and invariably results in more vigorous plants, since there is no hardening or check in growth as sometimes happens when seedlings have been banded or potted.

FERTILIZATION—Maintain a level of about 20 ppm nitrogen and potash (Spurway) during the early stages of growth. Gradually taper off nitrogen feedings when spikes appear. Liquid feedings of 15-30-15, 20-20-20, etc., one every two weeks, are adequate at the rate of one ounce in five gallons of water (one-half pound per 100 gallons).

Summer-flowering crops should be fed heavier than the above schedule to keep pace with the faster rate of growth.

Yoder Bros. Varieties Now Available in 1/2 Tr. Pkts. Price.....\$2.00 Each

SNAPS IN WINTER AT 60°

Some interest has been shown by year round mum growers to produce a crop of late Winter Snaps which they could grow at 60° nights in the same house with mums.

Tests carried out by Yoder Bros. show the best results were obtained from the Spring-Fall group, and that the best of these, for this crop, are apparently Virginia (White), Kentucky (Light Pink), Colorado (Yellow), and Tennessee (Red).

The Potomac varieties, especially Yellow, were satisfactory, but flowered several weeks later.

THIS REPORT IS PRELIMINARY SINCE THIS PROCEDURE HAS NOT YET BEEN FULLY EXPLORED TO RECOMMEND THAT GROWERS GO ALL OUT ON THIS IDEA.

Listed below is a suggested time table in the event you would like to try this on an experimental basis:—

CONTINUOUS FLOWERING OF ASTERS

Sow Seeds	Pot Seedlings	Bench Plants	Flowering Date Approximate
Dec. 10	Jan. 10	March 1	May
Feb. 1	Feb. 20	April 1	June
March 15	April 10	May 15	July
April 20	May 10	June 15	August
May 20	June 10	July 15	September
June 10	July 1	Aug. 15	October
June 20	July 15	Aug. 20	November
July 10	Aug. 1	Sept. 1	December
July 15	Aug. 10	Sept. 15	January
August 15	Sept. 10	Nov. 1	February
Sept. 10	Oct. 1	Dec. 1	March
Oct. 20	Nov. 15	Jan. 1	April

Plants must be given additional light between September 1 and May 1 regardless if they are in seed flats or in the bench. If the plants are not lighted while in small pots, they develop a rosette of leaves and growth of the stem and flowers are delayed. Plants should be lighted until the first flowers show color.

Low wattage bulbs will suffice for additional light. On a four-foot bench, 60-watt lamps spaced 5 feet apart and about 24 inches above the plants will give ample light for this crop. Spacing is usually 8 x 8 inches in the bench and a 60° night temperature is essential.

ADDITIONAL LIGHTING SCHEDULE

- 3 hours during the months of September, October, March and April.
- 4 hours during the month of November and February.
- 5 hours during the months of December and January.

BEGONIA FIBROUS ROOTED

BEGONIA (Fibrous Rooted)

(Approx. 30,000 seeds per 1/32 oz.)

Production of Begonias from seed is simple. January sowing produces plants for spring bedding work. The fine seed is lightly pressed into a sterilized fibrous medium. The seed is kept moist, not covered, and germinates best at 60 to 70 degrees. An economical method has been to shift the seedlings to flats spaced 2 x 2 inches and grow them on until they become crowded. Then transfer to 3- or 4-inch pots.

Try monthly sowings from August to March for a constant supply to meet your customer's demand.

F1 HYBRIDS—Heterosis Varieties

SOLD IN PACKETS ONLY

As pot plants in 3, 4, or 5-inch pots they may be recommended to your customers for they do well in high temperatures and low light intensities of modern homes. F1 hybrids, vigorous in pots, are also excellent bedding subjects in part shade or in full sun. F1 seed produces a uniform crop.

Multiflora Nana Mixed.....2.50

Triumph Strain (Grandiflora)—

Large flowered strain, the best in

its class.....\$2.50

CULTURE

The soil used in germinating the seeds should be made up of two parts leaf mold, two parts well-rooted manure, two parts soil, and one part sand. Sterilize the soil and flat with steam to eradicate all disease.

Seed is fine and does not need a soil covering. A night temperature of 60° is recommended for germination. Shift to 2½-inch bands, then to 4 or 5-inch pots for finishing. A 48° house is best after the shift. Spray weekly with parathion for aphid control, and shade from direct sun after February. Overwatering causes yellowing.

CALENDULA (Approx. 4,500 seeds per oz.)

This long stemmed class will flower freely during the spring from a January sowing. For mid-winter sow Aug.-Sept.

CINERARIA

Siter's Hybrids

Trade Mark ®

They are a distinct improvement over the original Siter's Strain, and because they are Hybrids from original crosses, cannot be offered by anyone but the originator.

This is an entirely new group of Cineraria Hybrids, blended for a perfect combination of colors, ranging from bright-eyed types through the finer pastel shades.

These new types carry large flower heads with medium-large individual flowers.

Seed for 500 plants..... \$ 5.00

Seed for 1000 plants..... 10.00

Positively do not use soil that was previously used for Mums and especially so if your Mums were affected with Verticillium wilt or Seidewitz disease. Cinerarias are attacked by this wilt which is a soil-borne fungus. It will cause the lower leaves to wilt and die and then gradually kill the entire plant. The only prevention for this trouble is to use new field soil from seed flat to finished pot. Steam sterilize soil. Sow in January for spring combination work. Sow from June on for Christmas and late winter pot plants.

MULTIFLORA GRANDIFLORA NANA MIXED

Improved German Strain (Approx. 6,000 seeds per 1/32 oz.)

This is an outstanding German Strain consisting of a beautiful color assortment of bright-eyed types.....Tr. Pkt. \$2.50

Firefly —As a spring pot or bedding item, easily produced from seed. Reach a height of twelve inches covered with scarlet flowers.....	\$.40	\$.75	\$1.35	\$4.00

DELPHINIUM

PACIFIC STRAIN (Vetterle & Reinelt)

(Approx. 13,000 seeds per oz.)

July or August sowing and transplanting into the field during the fall will produce an early crop with large spikes. Delphiniums require a well-drained soil, neutral in reaction. A January sowing, transplanted in the greenhouse and set out in early spring provides a good cut during the summer.

Astolat Series—Pale blush through lilac pink to deep raspberry rose. Large brown, fawn and black bees.

Black Knight—Florets, 2 to 3" in diameter, are dark purple.

Blue Bird Series—Clearest medium blues with white bees.

Bluejay Series—Clear medium to dark blue.

Cameliard Series—Pure lavender self, with white bee.

Galahad Series—Flowers clear white, averaging three inches in diameter.

Guinevere Series—Light pink lavender self with white bee.

King Arthur—Brilliant royal violet with large white bee.

Lancelot Series—Clear lilac self with white bee.

Percival Series—Glistening white flowers with contrasting black bee.

Round Table Series—Some three hundred different crosses were used to make up this group.

Summer Skies Series—Clearest light blue with white bee.

All Colors Mixed—A blend containing all named colors mentioned above.

KALANCHOE (Approx. 60,000 seeds per 1/32 oz.)

For Christmas flowering, shade the plants with black cloth from September 1st to October 10th, from 5 P.M. to 8 A.M. each day and grow in 60 degree house.

Brilliant Star—Extremely large fiery red flowers. Good Tr. Pkt. 1/128 oz. 1/64 oz. 1/32 oz.
for cutting as well as pots. \$1.00 \$2.10 \$3.85 \$7.00

Improved Tom Thumb—Sport of original Tom Thumb with similar habit, but has florets, larger with more substance and a darker red. Orig. Tr. Pkt. contains 1/128 oz. 3.50 6.50 12.00

Vulcan—Flowers somewhat larger and brighter red than old standby Tom Thumb. Tr. Pkt. 1/128 oz. 1/64 oz. 1/32 oz.
1.25 3.50 6.50 12.00

KOCHIA (Approx. 30,000 seeds per oz.)

Childsi—Oval shaped plants stay green through entire summer season. Tr. Pkt. Oz.
\$.15 \$.50

LARKSPUR (Approx. 9,000 seeds per oz.)

OUTDOOR CUT FLOWERS—Sown outdoors from August 15 to September 15 larkspur seedlings will be large enough to winter over for an early summer crop. A mulch prevents heaving over winter. Good results may also be had by sowing seed outdoors as soon as the ground can be worked in spring. Spaced an inch apart, 1 oz. of seed will give about 700 feet of row.

INDOOR SPRING FLOWERS—A December or January sowing produces 3-inch band or pot plants to follow late mums. Space 1 foot apart each way in ground beds and 10 x 10 inches in raised beds. Plants grow 4 to 5 feet tall and do best in a 45 to 50° house.

Regal Light Blue—Best azure blue

Dark Blue Supreme—Rich violet purple

Lilac Supreme—Clearest lavender

Regal Deep Carmine—Deep rich carmine rose

Pink Supreme—Clear rose pink

Regal Brilliant Rose—Strong deepest rose

Salmon Supreme—Excellent medium salmon rose

Sow seeds early to have plants in flower for Decoration Day. Excellent plant for edging and general bedding. Will flower profusely during entire summer.

Purple Robe—Deep violet purple

Tr. Pkt.	¼ oz.	½ oz.
\$.50	\$1.75	\$3.25

PANSIES

(Approx. 21,000 seeds per oz.)

CULTURE

For spring bedding plant sales pansies are sown either indoors in December or January or outdoors from July until September. December- or January-sown plants are carried in a cool greenhouse, transplanted into frames about March and are ready for May sales. Late summer-sown seed outdoors in shaded frames produces large enough plants to be spaced 4 x 6 inches apart in frames, strong enough to carry over winter under a loose mulch. The plants must be well established before winter sets in.

SPECIAL STRAIN MIXED

This strain possesses very large blooms on vigorous plants, and is especially good for bedding. The color range is excellent containing combinations of deep rich colors in the red and wine shades. F2 hybrids, the plants have tremendous vigor and giant flowers. Compact plants, they are ideal for basket work.

Tr. Pkt.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.
\$1.50	\$3.75	\$7.00	\$22.00

MASQUERADE

F2 early and bright-colored variety derived from the Oregon jumbo type. Vari-colored in shades of yellow blue, violet, mauve and rust.

Tr. Pkt.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.
\$1.50	\$3.75	\$7.00	\$22.00

KING SIZE MIXED (NEW)

Excellent new early strain, blooms over a long season with the husky robust plants producing giant size flowers. Colors include variations of mahogany and raspberry and gold vi-colors.

Tr. Pkt.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.
\$1.50	\$3.75	\$7.00	\$22.00

NON PLUS ULTRA

Flowers of superb texture and excellent markings. Made up of fourteen separate colors so blended that it gives a perfect color balance to the mixture. It is without question a perfect strain for the commercial trade.

Tr. Pkt.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	Oz.
\$1.00	\$1.75	\$3.50	\$12.00

RUFFLED FANTASIES

PETUNIA RED ENSIGN

PETUNIAS

F1 HYBRID GRANDIFLORA

The F1 Hybrid Grandiflora Petunias are one of the showiest and most outstanding bedding plants of the day. They make the most impressive and longlasting display with a minimum of care of any annuals available to the home gardener.

The wide selection of colors, ranging from red through rose shades, pinks, white, lavender, blue and bi-colors make them ideal for any color combination the home gardener would want in his annual border.

RED SHADES

Bonfire—Dazzling deep salmon scarlet with golden throat. The large plain edged flowers are borne on dwarf compact plants.

Fire Gleam—Brilliant salmon scarlet fringed flowers. Plants are very vigorous.

Northern Sunrise—(New)—Color is similar to Fire Gleam but with a more pronounced reddish shade.

Red Chief—Plain edged large deep red flowers. Slightly lighter than Fire Chief. Free flowering—dwarf habit.

Red Ensign—(New)—Deep scarlet red color. This plain edge Grandiflora is erect growing but dwarf.

PRICES OF THE ABOVE VARIETIES

PRIMA DONNA

PETUNIA CALYPSO

PETUNIAS

F1 HYBRID GRANDIFLORA

BI-COLOR VARIETIES

Calypso (New)—Dense growing compact plants which are a truly eye catching blend of scarlet and white. The medium size blooms are well ruffled and quite heavily fringed.

Crusader—A very popular bi-color with contrasting bright rose pink stripes on well fringed white blossoms.

Sabre Dance—Extra large blooms of deep burgundy crimson variegated with a white star. Compact but vigorous habit plus strong color contrast make this a very popular variety.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50	\$30.00	\$57.00	\$108.00

Minstrel—Medium-large, well ruffled flowers are abundantly produced on uniformly dwarf and compact plants. Color, though somewhat irregular is a pleasing blend of rich deep violet blue and white.

Rose Veil—A pleasing and somewhat different blend of colors, not usually found in Petunias. Basic color is a soft blush pink, with fine veining of deep rose. Plants are dwarf and uniform.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$12.00	\$20.00	\$36.00	\$65.00

WHITE

La Paloma—Medium large well fringed white flowers have finely contrasting yellow throats. Habit is both vigorous and uniform.

White Magic—Size of bloom, earliness, and exceptional flower production have made **White Magic** one of the most popular petunias available. Plants are dwarf but robust.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50	\$30.00	\$57.00	\$108.00

Snow Cap—This early, free flowering variety has what might be called true Grandiflora size blooms. The large heavily ruffled pure white flowers, plus its dwarf and vigorous habit make this a must on any order.

Snow Lady—Dwarf, uniform and compact habit in addition to the well fringed large pure white flowers, make this an ideal Petunia for combinations and pots.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$12.00	\$20.00	\$36.00	\$65.00

BLUE LUSTRE

PETUNIAS

F1 HYBRID GRANDIFLORA

BLUE SHADES

Bluebell—Light violet non fringed variety that has a medium dwarf compact growth.

Blue Lace—A new orchid blue shade that gives a nice effect in the garden. The flowers are orchid blue with violet penciling. The foliage is dark green. Plants are vigorous and sturdy.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50	\$30.00	\$57.00	\$108.00

Blue Lustre—The large waved flowers are a deep mid blue turning darker in cool weather. Plants are dwarf and begin flowering early.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$3.00	\$5.50	\$10.00	\$19.00	\$36.00	\$69.00	\$129.00

Blue Magic—Considered the bluest of the Grandifloras. Plants are dwarf and compact. The flowers are a medium deep violet blue, slightly fringed and ruffled.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50	\$30.00	\$57.00	\$108.00

Blue Mantle—Dwarf large flowering velvety violet blue flowers that are waved. Plant habit is dwarf, uniform and compact.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$12.00	\$20.00	\$36.00	\$65.00

Psyche—Clear steel blue with darker veining—uniform in color and habit.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$12.00	\$20.00	\$36.00	\$65.00

MIXED

F1 Grandiflora—This is a carefully blended mixture made up of the best F1 Grandifloras in both the fringed and waved varieties.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50	\$30.00	\$57.00	\$108.00

PETUNIA RED SATIN

PETUNIAS

F1 HYBRID MULTIFLORA

RED SHADES

The F1 Hybrida Multiflora Petunias have flowers that correspond in size and character to the old Nana Compacta types. At this point the comparison ends. The advantage of the F1 is that they have greater vigor and greater flowering capabilities. Furthermore by producing seed from selected parents, the breeder has complete control over plant habit, such as stabilizing uniformity and reducing undesirable habits. This group makes an outstanding display starting to flower early and continuing on until late in the season.

Aztec—This improved strain is earlier and more compact growing. Blooms of brilliant scarlet red with gold throat. Resembling a smaller version of Fire Dance.

Comanche Improved—One of the most popular varieties. Considered the reddest red Comanche has been continuously improved upon. The plants are dwarf and compact, holding their form throughout the entire season.

Firebird—Flower color is intense orange red with gold throat. Plants are compact, vigorous and very floriferous.

Inca—Rich, bright rose-red with gold throat. Plants are free blooming, dwarf and compact.

Red Glow—(Alpha Red)—Bright scarlet red. Very free flowering and very compact plants.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$12.00	\$20.00	\$35.00	\$60.00

Red Satin—This was an All American winner several years ago. The vivid scarlet color is quite outstanding. This is the forerunner of a class that is being bred for its dwarf mound like growth. Its ability to retain this form and not break open in the center makes this a most desirable variety.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$2.25	\$4.00	\$7.50	\$14.50	\$26.00	\$46.00	\$82.00

CORAL SATIN

PETUNIAS

F1 HYBRID MULTIFLORA

ROSE AND PINK SHADES

Coral Satin—**ALL-AMERICA SELECTIONS**

The award winner for 1961. Dwarf and very uniform, globe shaped plants are completely smothered in a blanket of striking coral rose. The color which is deeper than the earlier variety, **Peach Satin**, plus the complete uniformity of habit, make this the outstanding variety for this season.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.
\$2.50	\$4.50	\$8.00	\$15.50
$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	
\$30.00	\$57.00	\$108.00	

Peach Satin—Early blooms of coral pink which gradually change to a soft salmon as blossom ages. Vigorous habit.

Pink Satin—Very uniform globe shaped plants which are extremely floriferous. Flowers are brilliant rose pink, with small white area deep in the throat of the bloom. Few if any other bedding plant items can compare with **Pink Satin** for uniformity and long term production in the garden.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$11.70	\$20.00	\$35.00	\$60.00

Bridesmaid—(New)—Rich rose with large contrasting white throat. Dwarf vigorous habit and ability to stand up well in wet weather, should make this a very well accepted addition.

Bo-Peep—A truly pleasing bright rose pink which is broken only by a small white throat in each of the numerous blossoms, along with good dwarf and uniform habit, make this a very popular and desirable bedding item.

Cherokee—(New)—The rich deep rose-pink color and earliness of bloom, along with its very uniform habit will no doubt make this a hit.

Linda—Plants which are compact, vigorous and very free flowering, with blooms of a clear light salmon pink.

Venus—Vigorous, spreading plants which freely produce a maze of clear bright celestial rose pink blooms above the foliage.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
\$1.75	\$3.50	\$6.50	\$11.70	\$20.00	\$35.00	\$60.00

PETUNIAS

F1 HYBRID MULTIFLORA

BLUE SHADES

PETUNIA BLUE RIBBON

Blue Ribbon—This is one of the outstanding Blue Multifloras. The plant habit is slightly larger than the Satins. It is considered one of the most reliable violet blue Petunias that does well in all areas.

Tr. Pkt.	$\frac{1}{2}$ 28 oz.	$\frac{1}{4}$ 64 oz.
\$2.25	\$4.00	\$7.50
	$\frac{1}{8}$ 2 oz.	$\frac{1}{16}$ oz.
	\$14.50	\$26.00
	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.
	\$46.00	\$82.00

Indigo Glow—(New)—Plants compact and very free flowering with blooms of a rich indigo blue.

Mercury—Flowers slightly star shaped are a clear, medium light blue with light yellowish throat. Very dwarf and compact but with plenty of vigor. Blue color compares to varieties Heavenly Blue or Silver Blue.

Neptune—Weather resistant, vigorous, dwarf compact plants which produce freely blooms of a rich medium violet blue.

Purple Glow—(Alpha Purple)—Lustrous deep purple flowers are produced in abundance on very compact, semi-spreading plants.

Sugar Plum—A new and distinct Petunia that was introduced several years ago and is gaining in popularity by leaps and bounds. The orchid pink flowers are pencilled and shaded a rich orchid purple. Flowers are borne in great profusion on mound like plants. This is truly an outstanding variety. Seeing Sugar Plum in various trials it seemed to be less susceptible to rain damage than others.

PRICES OF THE ABOVE VARIETIES

PETUNIAS

F1 MULTIFLORA

BI-COLOR AND
STARRED VARIETIES

PETUNIA POLARIS

Comet—Plants are compact and vigorous, producing blooms of a bright warm crimson red, each with a perfect white star.

Satellite—Profuse early flowering plants are dwarf and compact having blooms of bright rose with contrasting perfect white star.

Glitters—

—Bright fire chief red ground color, with contrasting white stripes. Extra dwarf compact and free flowering.

Polaris—(New)—This distinctive new starred variety promises to be one of the outstanding additions to the garden. The flowers are deep violet blue with white star. It is free flowering and makes a bright outstanding spot in the garden.

Space Star—Striking bright rose red with pure white star. Plants are dwarf and compact with colors both brilliant and appealing.

Star Flight—Rich purple with white star, color of variety Elks Star but more uniform both in markings and plant habit.

The Clown—Blooms are large and of an attractive salmon red with contrasting white stripes, giving a starred effect.

WHITE

Jack Frost—Compact uniform plants which are literally blanketed with sparkling white blooms.

Pale Face—Plants vigorous, dwarf, compact and very uniform. Blooms which are pure white are freely produced.

White Harmony—Medium early flowering with fairly large pure white flowers which are produced in abundance. Plant habit very dwarf yet vigorous. Excellent producer.

White Satin—This is a welcome addition to the "Satin" series. The flowers are pure white and have a slight crepe effect in the petals. Early flowering. This variety combined with "Red Satin" makes a nice splash of color in the border.

Tr. Pkt.	$\frac{1}{128}$ oz.	$\frac{1}{64}$ oz.	$\frac{1}{32}$ oz.	$\frac{1}{16}$ oz.	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.

ALL DOUBLE PETUNIAS

PAN AMERICAN STRAINS

This is an exceptionally fine strain of All-Double Petunias bred and grown in the United States. It is considered one of the leading strains bearing large double blooms in the most popular colors.

Allegro—Buds are scarlet salmon, which open to a bright deep salmon. Flowers fully fringed. Plants are dwarf and uniform.

Caprice—Fully fringed blooms of a bright rose are borne on uniformly dwarf and vigorous plants.

Lyric—(New)—Light salmon pink, compact habit with very large fully double flowers.

Minuet—Medium sized lavender tall grower. Should be pinched.

Nocturne—Medium sized blooms of deep violet purple, produced on dwarf compact plants.

Presto—Brilliant rose and white variegated. A double version of Crusader. Large fringed flowers on dwarf compact plants.

PETUNIA "LYRIC"

Rhapsody—Flowers are burgundy wine-purple, on vigorous dwarf plants.

Sonata—Large pure white flowers which are deeply fringed. Medium dwarf vigorous plants.

PHLOX DRUMMONDI

(Approx. 17,500 seeds per oz.)

Annual phlox is one of the most showy bedding plants for the border and is gaining in popularity each year. The dwarf compact plants covered with bright colored flowers are quite colorful.

*Gloekner***SPECIAL STRAIN MIXED**

This is an exceptionally dwarf strain of phlox especially adapted to pot culture for spring sales. The mixture of colors are well balanced and bright with fine individual flower heads.

This strain has been well tried in many localities as we have had it for a number of years in very limited quantities.

SPLENDENS (Scarlet Sage)

(Approx. 7,500 seeds per oz.)

This beautiful scarlet-flowered annual is gaining in popularity and is constantly in demand by homeowners. From July until frost it blooms profusely and is handsome in combination with white and/or pink petunias. It also may be recommended to plant in borders beside chrysanthemums for a striking fall color display. Seed should be sown in March in flats to which bottom heat is given to speed germination. From seedling to finished plant, no soil sterilized with methyl bromide should be used.

STOCKS

(Approx. 18,700 seeds per oz.)

STOCK CULTURE

Stocks are very satisfactory for Winter and Spring flowering. Sowing the seeds in August and benching in October, the first flowers may be cut before Christmas if additional light (40-60 watt lamps spaced 5 feet) is used. Without this aid, the crop will come into flower in January. Continuity of bloom may be obtained by successive sowings to about the middle of February. This non-branching type, which has come into general use, should be planted 3 inches in the row and 6 inches between rows, producing a single stem. The branching types should be planted 8 x 8 inches and topped when 6 inches tall to produce side shoots of sufficient length.

Flowering of stocks only occurs when the temperatures are below 60 degrees for the greater part of the night. To secure the greatest percentage of doubling, the largest and most vigorous plants should be selected.

VERBENA — Continued

(Approx. 10,000 seeds per oz.)

Excellent for window boxes or combinations, Verbenas are also popular for bedding. To hasten germination seed should be sown in a 65° soil temperature. Because the plants tend to sprawl, they are easier to handle during the bedding sale season if they are pinched back early. Once established they may be grown at 50° night temperature.

BUSH-TYPE (Multiflora)

These new "Bush-Type" Verbenas are becoming very popular for their uniform, vigorous and upright growth. Eight to ten inches high, the plants are topped with a dense mass of flower heads.

Firelight—Vivid solid red.

Roselight—Bright rose, white eye.

Salmon Queen—Salmon-pink.

Snow White.

Starlight—Blue, cream eye.

ELEGANS PUMILA

PERENNIALS

Home gardeners are discovering the landscape beauty of the easy-to-grow perennials listed on these pages. No spring sales yard is complete without a wide selection of perennials in baskets or pots for them to choose from. At present the most popular are Alyssum saxatile, aquilegia, English daisy, cerastium, Siberian wallflower, campanula, shasta daisy, coreopsis, foxglove, gaillardia, heuchera, candytuft, scabiosa, sweet William, and viola cornuta. Seed is best sown in spring for germination, is better when the weather is cool. The young plants are spaced in beds in early summer and they winter over well for spring sales. Indoor-sown seed in January or early February also produces saleable spring plants, many of which will be in bloom. Plan now to round out your plant offerings with the popular perennials.

F1 HYBRID VEGETABLES

F1 Hybrid Vegetable, like F1 Hybrid Flower Seed, offers many benefits over the older standard or line bred varieties. Uniformity, earliness, disease resistance and, above all, much greater productivity are all clearly evident in the F1 Hybrids.

CUCUMBER F1

Burpee Hybrid—60 Days—High resistance, vigor and long production, make this a truly outstanding variety:

Early Surecrop—58 Days—This variety is now widely sold for Greenhouse, Market and Home Gardening use. Used for both pickling and slicing, the crisp 8 to 9 inch fruits are highly disease resistant.

Total Marketer—65 Days—For use as a shipper and greenhouse hybrid. Produces uniform dark green 8 to 9 inch fruits over a period which extends well past most other varieties. High yielding and uniform.

PRICES OF ABOVE VARIETIES

$\frac{1}{2}$ oz.	Oz.	$\frac{1}{4}$ lb.
\$2.20	\$4.25	\$12.75

TOMATO F1

Burpee Big Boy Hybrid®—One of the largest F1 Hybrid Tomatoes. Fruits are firm, smooth, deep globe, scarlet of excellent flavor and quality. Mid-season producing continuously until frost.

® Registered Trademark of W. Atlee Burpee Co.

Early Giant—60 Days—Vigorous, early and large fruited. Deep red, globe shaped without undesirable white core.

Giant King—80 Days—Bright scarlet, globe shaped fruits of excellent quality and flavor. Good mid-season tomato.

Tuckcross O—(Tuckers Forcing X Ohio WR No. 3)—Forcing variety, produces red fruits which are smooth, meaty and highly disease resistant.

Wonder Boy—80 Days—This improved mid-season variety produces large, round, meaty fruits of exceptional texture and flavor.

HERBS

Customers will be buying herbs this spring as never before, for the garden and home magazines have been playing up their culinary uses as well as their garden beauty. Meet this demand with young plants in bands and flats.

Anise (Annual)—14 to 16 inches tall. Aromatic seeds used in flavoring.

Basil (Annual)—12 inches tall. Entire plant has fragrant spicy aroma. Used for seasoning.

Borage (Annual)—12 to 18 inches tall. Large thick leaves are used as a pot herb.

Coriander (Annual)—2 to 2½ ft. tall. Grown for seed. Used for flavoring in baking and confections.

Dill (Annual)—2 to 3 ft. tall. Chiefly grown for seed clusters used in pickling.

Sweet Fennel (Biennial)—3 to 4 ft. tall. Usually treated as an annual. Seed used for flavoring confections.

PRICES OF THE ABOVE VARIETIES

Tr. Pkt.....\$.20

Oz.....\$.60

Sweet Marjoram—1½ to 2 ft. tall. Grown for tender young leaves used in seasoning.

Sage (Perennial)—14 to 16 inches tall. The most commonly used of all herbs for seasoning.

PRICES OF THE ABOVE VARIETIES

Tr. Pkt.....\$.20

½ oz.....\$.60

Rosmary (Half Hardy Perennial)—2 to 4 ft. tall. Leaves used for seasoning.

Thyme (Hardy Perennial)—8 to 10 inches tall. Pungent flavor used in culinary seasoning.

FERT-O-JECT

AUTOMATIC FERTILIZER INJECTORS

This Automatic Fertilizer Injector is machine engineered to inject into the water system soluble fertilizers in proportions suitable for maximum plant growth. By using the Fert-O-Ject method of fertilization a mild application is applied each time plants are watered assuring a uniform application to all plants.

Available in two models

Model E.....\$475.00
 Model U-400 (Portable)..... 300.00

Write for complete descriptive literature.

POLYETHELENE DRUM

This is a fine heavy gauge drum to hold liquid fertilizer. You can see at all times the level of the concentrate. Supplied with spigot.

Model SCN-2232—(53 gal. size)—

Weight 7½ lbs. Size 22¼ x 32¼

Price.....\$28.40

Lid for Drum..... 5.00

KWH MIST BLOWERS (Mist Blower & Duster Combination)

Model 25C—Mist blower and duster combination—1 h.p. gasoline engine with hopper for approx. 20 lbs. of dust and front liquid tank holding about 1½ gallons. Price.....\$258.00

Write for complete descriptive literature.

PANO-DRENCH 4

EFFECTIVE FOR THE CONTROL OF DAMPING-OFF

An excellent liquid soil drench used to control damping-off caused by soil borne fungi (especially Rhizoctonia) on flowers and vegetables. For use in all soils, sands; on flats, pots, benches and outside beds. Just one to two teaspoons diluted with 3 gallons of water produces effective control. A 4 oz. bottle makes up to 72 gallons of drench—treats 300-400 sq. ft.

Price: 1 oz.....\$1.95 4 oz.....\$5.95 16 oz.....\$19.20

seeds, bulbs, plants and cuttings are selected with diligent care as to type, productiveness and freedom from disease so that you may have the best with which to build your prospective crops. Our interest in you and your crops by no means ends with the sale. We are more than anxious to have the materials we sell, grow and prove profitable to you.

WARRANTY AND LIMITATION OF LIABILITY: Subject to the limitations of liability herein set forth, we warrant that the seeds or bulbs sold are as described on the container, within recognized tolerances. Our liability on this warranty is limited in amount to the purchase price of the seeds or bulbs. In no event shall we be liable for the crop, or for any loss due to the failure, impairment or quality thereof or varietal variance therein, whether such loss results from breach of the foregoing warranty, from breach of any other provision of the buyer's contract for purchase of said seeds or bulbs, or from any other cause.

BUSINESS TERMS:

ON OPEN ACCOUNT: (Seeds Only). For customers of Approved Credit 60 Days Net. The following discounts will be allowed on orders paid within 10 days: \$5.00 to \$25.00 2%—\$25.00 to \$100.00 5%—\$100.00 to \$300.00 8%—\$300.00 or more 10%.
